AHC50524 Diploma of Arboriculture

Take your arboriculture career to the next level with the Diploma of Arboriculture

Enrol now and gain the skills and knowledge to become a consulting arborist or tree manager. Graduates with this qualification assess trees and produce reports and documentation attesting to the health and risks related to trees.

This program is most suited to applicants who have completed a Certificate III or higher-level qualification in a related discipline and possess a minimum of 24 months' relevant industry experience in vegetation management which has included the inspection/assessment and maintenance of trees.

Applicants must also have access to the internet and a laptop computer and be proficient in computer skills sufficient to conduct research and complete word-processed assignments, projects and reports and to enter data into an online portal.

Course Units

AHCARB408 Perform a ground-based tree defect evaluation

AHCARB508 Identify, select and specify trees

AHCARB509 Develop an arboricultural impact assessment report
